National Terrorism Advisory System Bulletin

On 11/15/16, The Department of Homeland Security issued a new National Terrorism Advisory System (NTAS) Bulletin. This new Bulletin has a duration of six months, and will expire on 05/15/17.

The bulletin's summary states:

- “Since the last NTAS Bulletin issued in June 2016, our basic assessment of the global threat environment has not changed. We remain concerned about homegrown violent extremists who could strike the homeland with little or no notice. Events since the last NTAS Bulletin reinforce this. Accordingly, increased public vigilance and awareness continue to be of utmost importance. This was, for example, a crucial component of the swift response to the September terrorist acts in New York City and New Jersey.”
- Full Bulletin can be found at: https://www.dhs.gov/sites/default/files/ntas/alerts/16_1115_NTAS_bulletin.pdf

Radio Maintenance, Law Enforcement Operations Center (LEOC), Cal OES HQ

On 11/16/16 at 1900 hours, Public Safety Communications (PSC) will install a Moducom Station in the Cal OES Law Enforcement Emergency Operations Center (LEOC) and will update all Moducom stations in the California State Warning Center (CSWC), Cal OES Fire Branch, Cal OES Telecommunications Branch, and CAL FIRE Emergency Command Center (ECC) Headquarters.

- All Moducom stations in the CSWC, Cal OES Fire Branch, Cal OES Telecommunications Branch, and CAL FIRE ECC HQ will be impacted for approximately 3-4 hours (1900-2300) and will be unable to monitor or respond to radio traffic.
- Cal OES Telecommunications has backup procedures in place to monitor and respond if needed.

- None reported

Remote/Community Isolations:

- None reported

WEATHER OF CONCERN

Weather of Concern

- A chilly air mass has settled over portions of Northern California and will bring several nights of cold weather through Friday. Tonight and Thursday night are forecast to be the coldest of with a Freeze Watch in effect from tonight through Thursday morning for Trinity, interior Humboldt, and northeast Mendocino counties.
- Widespread gusty northwest to north winds will bring elevated fire danger to much of Southwest California through this evening. On Thursday and Friday, winds will shift to the northeast with more widespread drying, especially Los Angeles and Ventura counties where a Fire Weather Watch has been issued for potential critical fire weather conditions.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER SYNOPSIS BY REGION

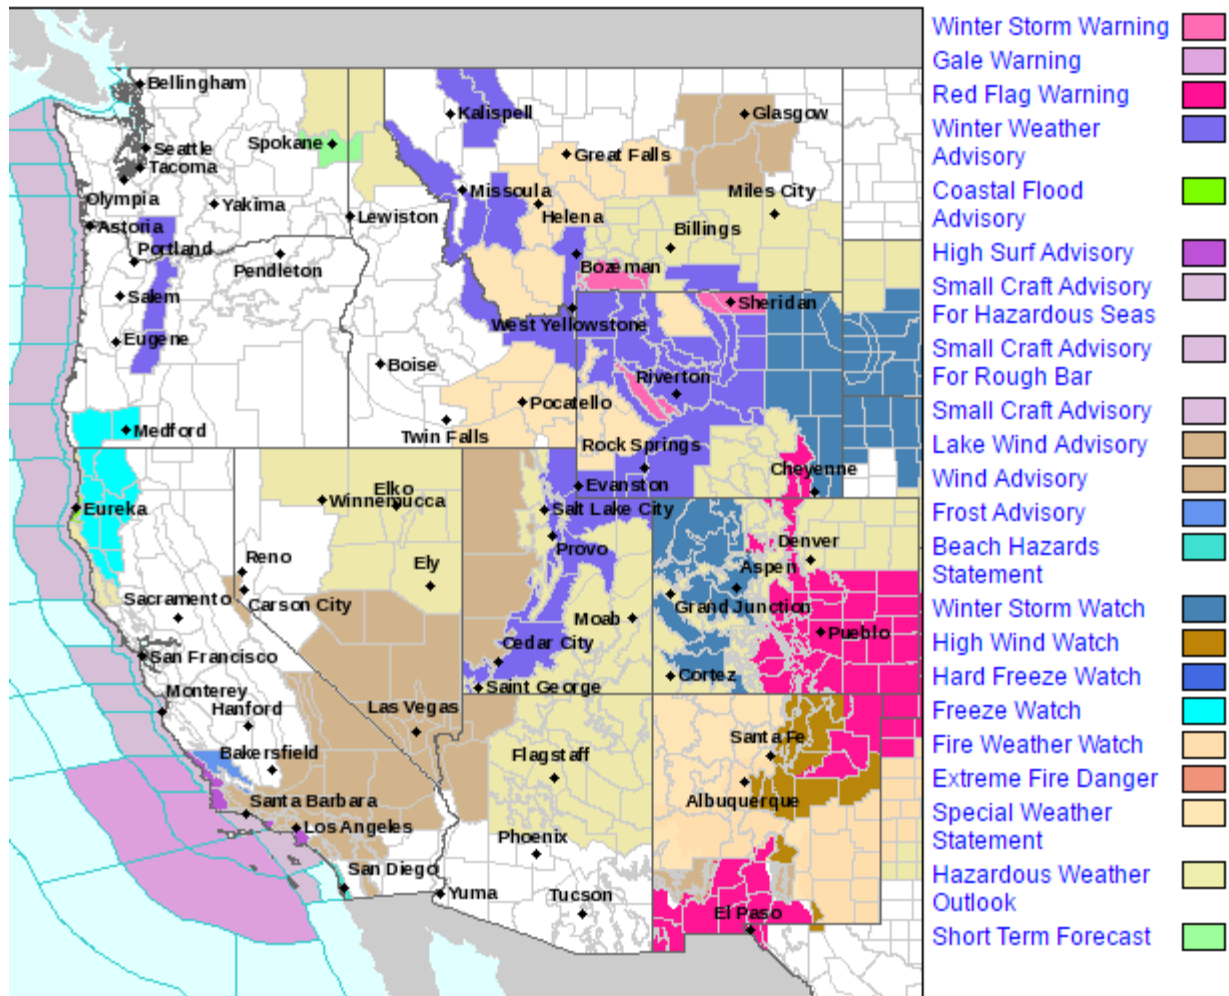

NORTHERN CALIFORNIA

Moderate to strong gusty southerly winds of 10-25 mph with gusts mostly 35-50 mph will accompany the current weather system this morning, mainly in the northern and eastern mountains. Stronger gusts more in the 70 mph range can be expected in the higher elevations of the Northern Sierra. Thursday into Friday will be drier for most areas as high pressure off shore moves east and ashore. There will still be some cloudiness these days, however, and high humidity. Later Friday a stronger, wetter system moves ashore then inland over the weekend with snow levels similar to Wednesday's or a little higher. Cloudiness and showers will linger Monday.

SOUTHERN CALIFORNIA

A Pacific trough will cool temperatures to near or a little below normal and bring a significant increase in humidity away from the deserts today and Thursday. This trough will also bring scattered showers mainly to the Sierra tonight through this evening, with less than a quarter inch of rainfall. The snow level will be around 6,000 feet. Southwest to northwest winds of 20 to 40 mph with gusts to 60 mph will surface across the mountain ridges and desert passes including the Owens Valley tonight through Wednesday evening. The back side of the trough will bring northwest to north winds of 20 to 40 mph with gusts to 60 mph to the South Coast of Santa Barbara, the Grapevine, and the Colorado River Wednesday evening through Thursday morning. Temperatures will warm to 5 to 10 degrees above normal and humidity will drop back into the single digits and teens Friday and Saturday as a ridge of high pressure builds into the region from the southwest. Winds will be light Friday and Saturday. Another Pacific trough will bring cooling and possible showers to the entire region Sunday or Monday.
